These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturers reserve the right to vary their specifications, including colour, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sales and Warranty given by the Distributor or Dealer, copies of which may be obtained from him/her on request. Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer or Distributor, especially if your model selection is dependent upon one of the features advertised.

# Lights, Cameras, ACTION!!

## Turn your back seat into the front row

The pleasure is yours with the Honda In-Vehicle Entertainment System! Simply press <PLAY> and prepare for a world of sound, fun and action... on the road!

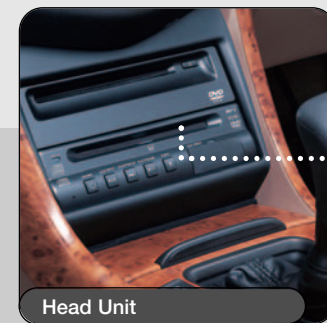

The In-Vehicle Entertainment System is designed to give your passengers endless hours of enjoyment and thrill, no matter where you're heading for. They can watch DVDs, listen to their latest music on MP3 or CD, or plug-and-play into cyberspace with the latest video games.

Traffic jams will fly by with the Honda In-Vehicle Entertainment System!

# An endless world of excitement... ...at your fingertips

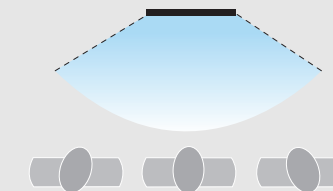

With the Honda In-Vehicle Entertainment System, fun knows no limits. You literally hold the entertainment in your hands. We all know driving can be a drag – especially when you're in the rear seats time can creep forward.

All that's in the past! Your passengers can now watch a movie, play a game or listen to their music. A movie never bores, and your kid passengers will love the action of their latest videogames – you'll love it too, because a happy kid is a silent kid.

Head Unit

Insert your DVDs or CDs in the central Rear Entertainment System device, located at the front of your car for convenience & perfect control (For the navigation system drive on top, please check with your Honda dealer for availability).

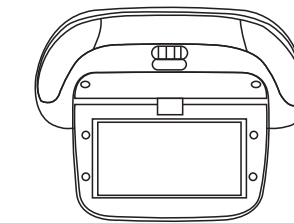

## A UNIQUE ANGLE

With its unique LCD screen filtering technology, the In-Vehicle Entertainment System only needs ONE screen to provide a perfect view for the entire back row! Blurry, bleak images caused by left- or right-side views are out!

No need to get up while watching because of the Rear Entertainment System remote. All functions are available, from simple PLAY, PAUSE, STOP, NEXT and BACK, to ZOOMING IN and OUT, to changing your screen options at your leisure. Because of the self-reflecting buttons, watching at night won't be a problem!

The unique 7" LCD display screen is customisable to your every need. The special screen technology provides a clear view from all angles. Comes with Integrated Dome Lights.

## UP-CLOSE FUN

Seen something that you'd like to get up close? No problem. Just rewind your DVD a short bit and use the ZOOM function of your screen!

## PARENTAL CONTROL LOCK

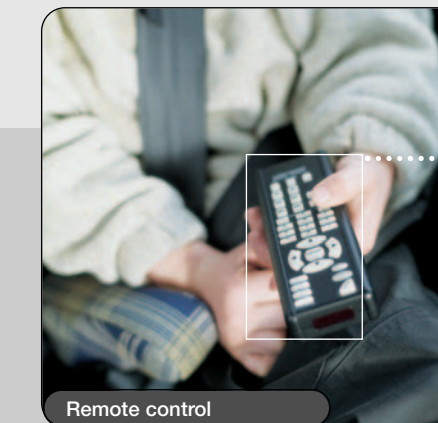

It is important to you to know that your kids are watching something that you can appreciate. If your DVDs support this feature, the Parental Control Lock can function as a virtual nanny, looking out for your kids while you do the driving.

## MP3 PLAY

Tired of having CD change after CD change on those long trips? Then don't! Compile your MP3 CDs on your PC at home and prepare for hours of music (don't copy music you don't own!).

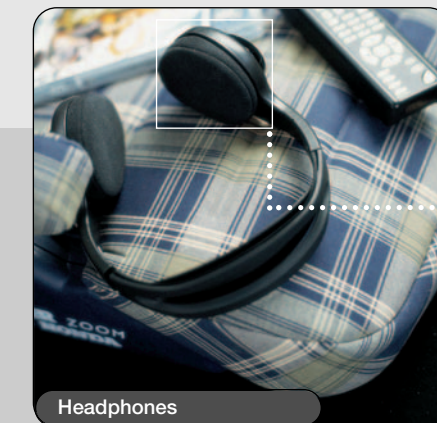

## LET THE GAMES BEGIN

If all that isn't enough for you, plug-and-play enables you to play your videogames in no time! You're a winner whenever you want to be!

Remote control

Use the Honda Rear Entertainment System's remote and have control at your fingertips. Works just like any remote control at home.

Headphones

Don't get your wires crossed! The cordless headphone that accompanies the Rear Entertainment System comes standard in twofold. Extra sets can be purchased separately if needed.
